

SPREAD THE WORD!

West County Rapid Response Network Training

"Accompaniment with Respect for the Immigrant Family"

10 am-12 noon, Saturday, August 25, 2018

at Community Church of Sebastopol, 1000 North Gravenstein Highway at Danmar

Join Rapid Response Accompaniment team members and Jina Brooks, a licensed marriage and family therapist, for a vital training on how to do the accompaniment work needed to support immigrant families facing immigration enforcement action and possible detention. Jina has been working in Sonoma County for 15 years as a therapist with diverse populations on trauma related issues with children and their families. Workshop will center on person-centered communication. Time will be given to discuss and become aware of how our own bias and style can hinder the connections we are trying to make. The group will consist of role plays and self reflection. Come learn how to join an accompaniment team in your community.

Please bring friends and family who are interested in learning how to support and accompany immigrant families....spread the word! We especially need accompaniment teams organized in the rural communities of the West County, e.g. Bodega, Bodega Bay, Jenner, Cazadero, Camp Meeker, Occidental, Guerneville, & Monte Rio.
